

Classroom Assignment: Looping Statements

Learning Objective:

Learn the fundamentals of looping statements in JavaScript

Expected Completion Time:

Best Case: 15 minutes

Average Case: 20 minutes

Assignment Details:

Write a JavaScript function named `printOddNumbers` that prints odd numbers between 1 and 25

Assignment Requirements:

1. Create a function - print odd numbers (from 1 to 25) and execute in debug mode
2. Call that function from the javascript

Hints to Solve:

Use the modulo operator for odd number detection and a for loop to iterate values from 1 to 25

Expected Outcome:

Upon completion, you should be able to:

- Understand and implement looping statements using Javascript
